

The planned Sinclair airing of this highly inflammatory film is a clear example of the failure of the public trust by a company under the regulation of the FCC. The FCC must prevent the airing of such media bias. In no way can this serve the public good. Furthermore, it is definitely not democratic. No matter which of the candidates wins the Nov.2 election, if Sinclair is allowed to air this program, it is your duty as a public trustee to disqualify Sinclair, taking their FCC license from them. This is not negotiable. It must happen. We live in a democracy and anything short would surely be a violation on the part of the FCC's public trust.
